Date :2011-10-01 version 1. Shijie and Li Sheng compiled a function per inequality theory and its applications solution starting from the inequality of function. the function is given per inequality concept. discussed some of the basic algorithm. summarized in the function element solution of inequality and the basic ideas common to study the structure of some special functions per inequality. the function on the set of positive integers and N-dimensional space of \$ inequality a function of solution per inequality and of the state. end of the book gives the function inequality and its solution per application. Book is a combination of theoretical and practical. not only focus on the function element describes the basic theory of inequality. but also ready to take the exam for all levels of mathematics competitions and help the students. the book deliberately prepared a lot of questions as a mathematics competition and a function of the College Entrance Examination Yuan inequality thinking questions. in fact. the book studies the function of many results per inequality. Mathematical Competition Problems with close ties. but also as a university and secondary school mathematics competition original questions of a new source. Inequality of Functional Elements Theory and Application for mathematics researchers. Department of Mathematics. University students. middle school math teachers and math-loving high school. secondary school students to read. Contents: Introduction Chapter I 1.1 inequality function solution function per 1.2 1.3 the concept of inequality inequality function per function per inequality solutions 1.4 1.5 Classification of independent variables contains only the basic function element inequality algorithms 1.6 function Yuan inequality and the relationship between functional equations Chapter II function per inequality...
